Provincial PCN Committee Priorities

Objective 1: Accountable and effective governance

- 1. Monitor and report on outcomes using a performance measurement and evaluation framework.**
- 2. Support policy recommendations regarding a revised funding model.**

Objective 2: Strong partnerships and transitions of care

- 1. Establish policy directions for transitions of care between primary health care and other services.**

Provincial PCN Committee Priorities

Objective 3: Health needs of the community and population

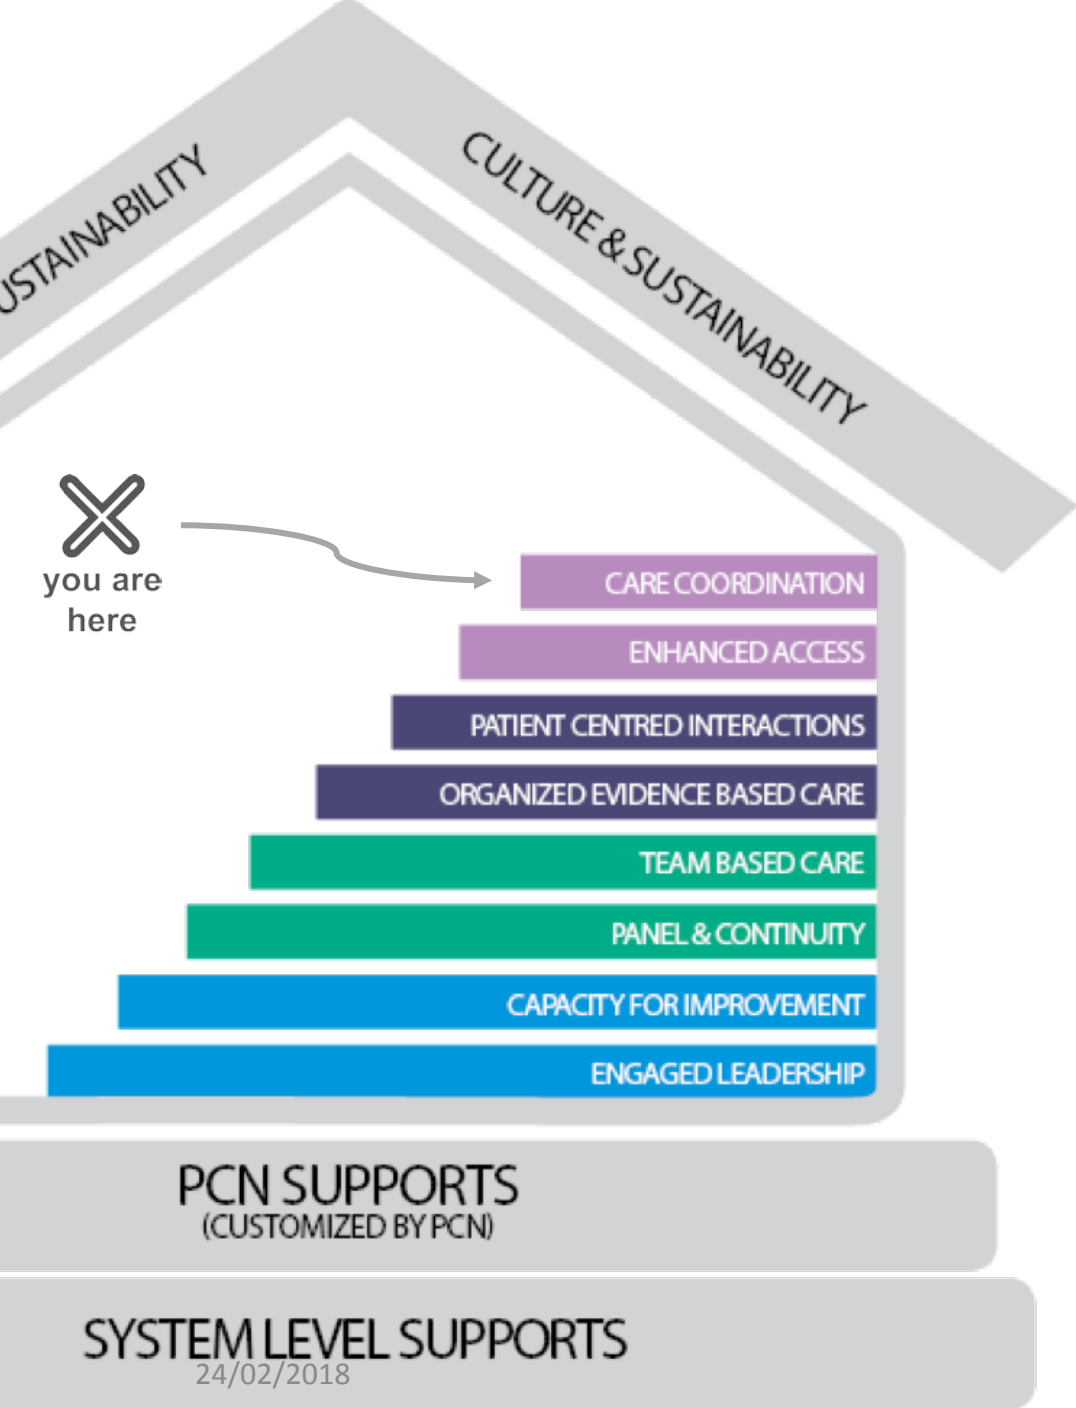

- 1. Define, and identify policy direction for primary health care populations and service delivery planning.**
- 2. Support Physician Resource Planning to develop needs based models**

Objective 4: Patient's medical home

- 1. Achieve full participation by family physicians/primary care providers and PCNs in the Central Patient Attachment Registry (CPAR).**
- 2. Improve provincial information continuity.**
- 3. Expand access to primary health care services.**

Zone Service Planning

Primary Care Network Zone Service Planning

The PCN Committee Zone Service plans, through the identification of **population based service priorities** will ensure Albertans will be able to receive more consistent, comprehensive and seamless care closer to home.

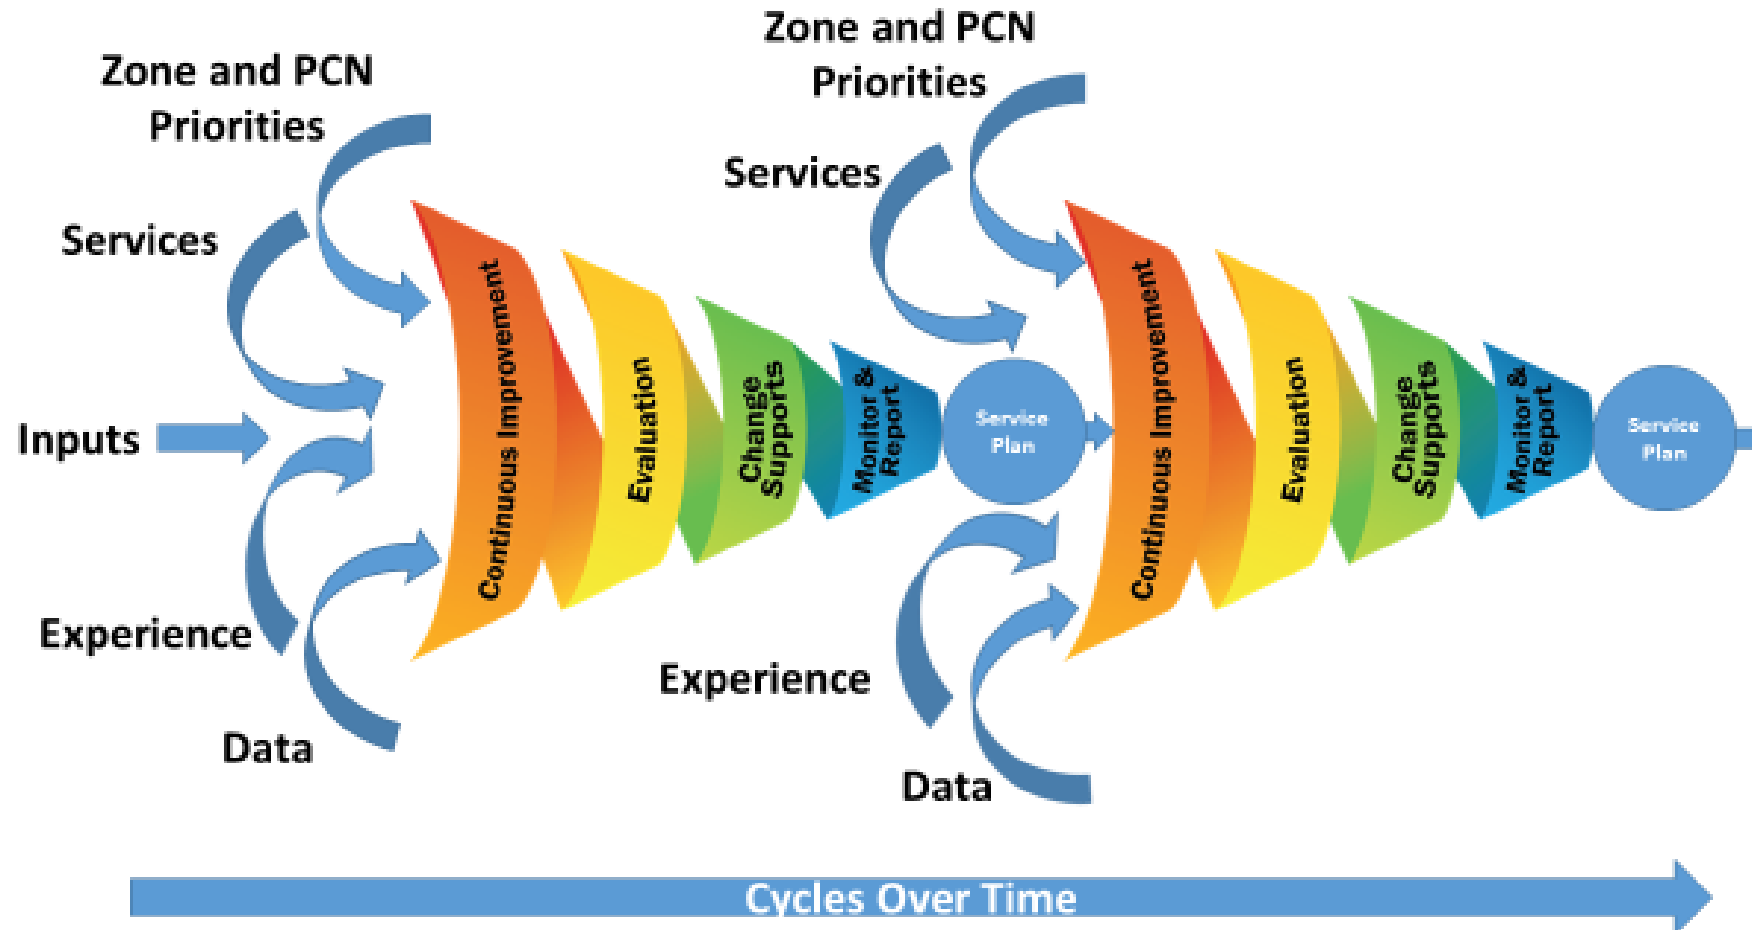

- Population level data
- Inventory of existing services
- Attachment information

Why?

- ❑ Opportunity for PCN cross-programming, planning and prioritization of Primary Care services to support the broader sharing of resources.
- ❑ Opportunities for alignment and prioritization across PCN and AHS community based services.
- ❑ Often in planning, issues can drive the plan. A PCN Zone service plan allows partners to begin at a high level and understand current resources and populations to look for trends and potential gaps.
