

Once a physician is enabled on CII, follow these steps to send consults to Netcare*.

1. Patient must have an appointment.
2. Create a consult report as normal, including attachments as appropriate.
3. Ensure **'Consult Report'** is selected from the 'Type' drop-down menu.
 - If you do not want to send the consult report to Alberta Netcare, select an alternate option from the 'Type' drop-down menu.
4. Click **'Gen. Letter'**.
5. Click **'Send Letter'** or **'Print'**. The consult report (and any associated attachments) is sent to Alberta Netcare as a pdf consult report that evening as set up in configuration.
